DEPARTMENT OVERVIEW

ABOUT

MISSION STATEMENT

The mission of the Parks & Community Services Department is to enhance the quality of life in Moreno Valley by providing safe and welcoming parks, trails, and open spaces, and by offering enriching recreational opportunities through quality facilities, programs, services, and activities for our residents.

WHAT IS THE PARKS & COMMUNITY SERVICES DEPARTMENT?

The Parks & Community Services Department (PCSD) consists of four divisions that develop, build and maintain parks, trails, and recreational facilities in a safe and aesthetically pleasing manner; maintain recreational open space; provide a wide range of programs for the community including athletic leagues, recreation classes, after school programs, teen and senior activities; adaptive programs; library services and literacy programs; schedule use of facilities; plan, organize, and promote community events; enforce park rules and regulations and promote safe use of park facilities.

FUNDING SOURCE & BUDGETS

HOW IS THE PARKS & COMMUNITY SERVICES DEPARTMENT FUNDED?

Funding for the department is comprised of revenue generated from various sources including property tax, special taxes, development impact fees, operating, usage and other miscellaneous fees from three Community Services Districts ("CSD" or "District") outlined below.

CSD-ZONE A (Budget \$12.9 million)

The citizens of Moreno Valley voted to create the Moreno Valley Community Services District ("CSD" or "District") at the time they approved the City's incorporation in 1984. The CSD "Zone A" was established to provide the community with parks, recreation, and community service programs. Services provided by PCSD include the operation and maintenance of parkland and linear parkway sites, improved multi-use trails, facilities, and recreational programs for the City's youth, adults, and senior citizens.

CFD NO.1 (Budget \$2.8 million)

Community Facilities District No. 1 ("CFD No. 1" or "District") was formed in 2003 to finance public services related to new parks constructed after the formation of the District and authorized the levy of a special tax onto the property tax roll of those parcels annexed into the District. Financial responsibility for maintenance of new parks is placed onto those properties that created the need for additional park facilities. Revenue received from this special tax can be used to fund park improvements and services within the district for the benefit of the residents of the District.

CFD 2021-01 (Budget \$525,500)

Community Facilities District No. 2021-01 (CFD No. 2021-01) was formed in 2021 to finance maintenance of park facilities constructed by both residential and non-residential development after the formation of the District authorized a special tax that is apportioned to properties annexed into the CFD.

FUTURE ANNEXATION:

As a requirement of development, future projects are approved on the condition the property owner provides a funding source to support the operations and ongoing maintenance of the facilities within the District. The qualified elector (i.e. landowner or registered voter, depending on the number of registered voters) can annex into the District and authorize the levy of the annual special tax on the property tax roll of the property or fund an endowment to cover the ongoing obligation for the project.

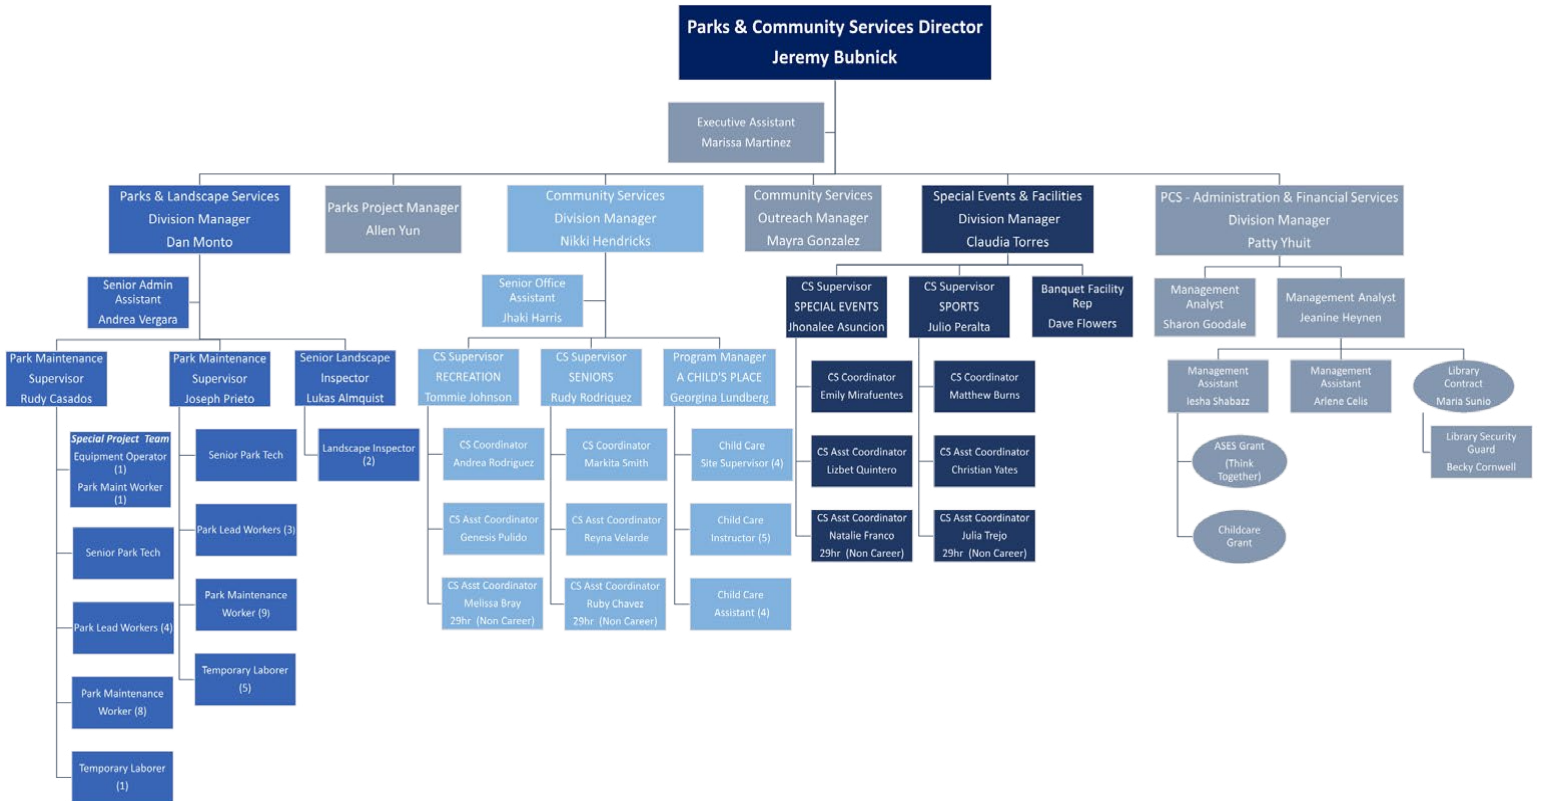

DESCRIPTION OF SERVICES:

The types of public services related to new parks to be financed from the levy of special taxes into the District, including the Future Annexation Area, include services for Park Maintenance such as planting, mowing, trimming, irrigation of grass, trees, shrubs, and other plants and vegetation. The operation, maintenance, repair, and replacement of irrigation systems, lighting systems, real property or improvements, that are owned and operated by the CSD are eligible expenditures. Expenditures for contracted costs for such services, salaries and benefits of staff, equipment, supplies, administrative and overhead costs, are allowable.

GRANT FUNDING (Budget \$13 million)

The department has been successful in securing grant funding from local, state and federal sources for various projects and programs. Over the past two years, \$3.3 million in grant funding was awarded for projects and programs across all divisions. This is in addition to the \$10.4 million in annual grant funding received. The goal is to continue to seek these opportunities to enhance programming and bring additional resources to the City.
