

SOLID WASTE & RECYCLING PROGRAM

CLEANER TODAY • GREENER TOMORROW • STRONGER TOGETHER

14177 Frederick St.,
Moreno Valley, CA 92552

(951) 413.3109

Moval.org

Effective January 1, 2022, all commercial businesses in the City of Moreno Valley, including multi-family (5 units or more) residential dwellings, must comply with all State of California-mandated (SB 1383) recycling and organic waste recycling provisions. Certain commercial businesses may qualify for waivers from these mandatory program requirements. If a waiver is not approved by the City, your business will be required to subscribe to mandated services immediately.

If your business wishes to file for an exemption (waiver) from SB 1383 requirements, the Waiver Request Form must be completed in its entirety. All requested information must be filled in for the City to consider your waiver request. Ultimately, the City must follow statutory waiver requirements; therefore, approval of your exemption claim is subject to State of California review. Please email the completed form to recycle@moval.org.

On the Waiver Request form, businesses applying for a waiver must indicate the type of waiver they are claiming by selecting the appropriate waiver type and providing the requested information. **Backup documentation for all waiver types must be provided with this completed form.** There are three types of waiver requests, which are as follows:

1. DE MINIMIS WAIVER

Commercial businesses that generate a limited amount of organic waste may apply for a "de minimis" waiver, if they either:

- A. The solid waste collection service for the business is 2 cubic yards or more per week and the business generates less than 20 gallons per week of recyclable materials and/or organics waste. OR
- B. The solid waste collection service for the business is less than 2 cubic yards per week and the business generates less than 10 gallons per week of recyclable materials and/or organic waste.

2. SPACE CONSTRAINT WAIVER

If your site genuinely lacks adequate space to place separate organics recycling containers, you may apply for a space constraint waiver.

To qualify, businesses and property owners must demonstrate space constraints that cannot be addressed through downsizing containers, using split containers, or other solutions. Businesses or property owners must first confer with the City to consider all feasible solutions to the space constraint.

State regulations allow the City to waive compliance with some or all of the recyclable materials and/or organic waste collection service requirements only if the City has confirmed through evidence from its own staff, a hauler, licensed architect, or licensed engineer that the premises lacks adequate space for the containers otherwise required.

3. THIRD-PARTY RECYCLER WAIVER

Your commercial business may opt out of solid waste collection services provided by the City's franchise hauler and their associated billing charges *only* if it provides sufficient information to the City demonstrating your internal recycling program(s) and/or a program provided by another service provider complies with state recycling laws and the **third-party service must be at no cost or you must subscribed with the City's franchised hauler.**

By signing and submitting this application, your business attests that it agrees to submit information on a quarterly or annual basis (as determined by City) to verify ongoing programs (e.g., service provider, material type, quantity recycled, and receiving facility.) Otherwise, the City's hauler is required to provide all mandated programs to your location as a condition of their City franchise. State law requires the City monitor its commercial businesses to ensure 100% compliance with state requirements

If you are eligible and wish to proceed in applying for one or more of these waivers, please proceed to complete the required SB1383 Waiver Request. You may also download this form and email your completed request to recycle@moval.org
